Business of the Year Award (under 20 employees) Finalists:
Cobus Communications Group

Cobus helping The Echoes with their new venture...

The Cobus Communications Group are helping new proprietors of The Wassand Arms public house in Hull to redecorate following new ownership by nominated charity of the year – The Echoes Foundation. Their exciting plans to revamp the pub into a rock venue will announce a new direction for a local charity renowned for its proactive thinking and fundraising ideas.

Cobus Communications Group Business Manager Vicky O'Grady comments "This exciting and unique venture by a charity into the leisure industry incorporates all of the reasons why Cobus wanted to get involved with The Echoes. We have been delighted to lend our help and support in various ways to help get the pub up and running from improving their CCTV system and security at the pub, to sponsorship, introducing local business contacts, refurbishments and marketing knowledge to help ensure the project gets off to a flying start."

Cobus are proud to be providing a free CCTV security system, minor works and staff dedication to help ensure the pub is ready for opening night on Friday 9th March.

The Echoes Foundation are delighted to have been given ownership of The Wassand Arms Pub, off Hessle Road in Hull and the charity will be running weekend rock and party nights to raise funds and opening night will be on Friday 9th March. Cobus are proud to be involved with this new project.

Cobus Testimonial

"We asked Cobus Communications to do a full audit of our communications setup as we needed the facility to record our calls. They provided excellent advice and we now have a fully integrated telephone system and call recording facility, with the ability to track and monitor all our calls. We switched our lines and calls to Cobus which has provided substantial savings and helped to fund the cost of a new telephone system. We have dealt with Cobus for several years now and always find their service to be excellent."

Jonathan Hinks, Managing Director
